SOFTWARE ENGINEER

Dynamic Full-stack Developer with 3+ years of experience . Proficient in technologies including .Net, Nodejs, React, SQL, NoSQL, and Azure. Recognized for proactive problem-solving, adeptly resolving critical production incidents, effectively managing projects, and mentoring junior teams. Experienced in software integrations, and maintaining diverse systems and technologies seamlessly. Skilled in fostering strong stakeholder relationships through excellent communication, presentation, and negotiation abilities. Committed to delivering cutting-edge software solutions while staying updated on emerging technology trends.

WORK EXPERIENCE

INNOV8Fusion Pvt (Ltd)

Software Engineer

Feb 2025 - Present

- Developed three full-scale systems : a **Human Resource Management (HRM)** platform using **.NET/C#, MySQL**, and **Entity Framework**, and a **cloud-native NestJS/TypeScript REST API** on **Google Cloud Platform (GCP)** for a **CSE broker platform and onboarding Platform**.
- Built **RESTful APIs**, **Role-Based Access Control (RBAC)**, secure authentication, biometric fingerprint attendance tracking, audit trails, and middleware for system change tracking to ensure compliance and data integrity across HRM modules.
- Developed core broker platform features including admin **CMS**, live **Colombo Stock Exchange** market data integration, paper trading simulator, portfolio/order management, **JWT authentication**, **Prisma ORM**, cloud storage, and **third-party API integrations** (WhatsApp/Facebook).
- Implemented **CI/CD pipelines** with **Docker**, **Terraform (Infrastructure as Code)**, and **Cloud Build**, enabling **DevOps**-driven automated deployments across **development, staging, and production**, with **Swagger/OpenAPI** documentation, **Jest unit testing**, and automated **database migrations**.

IOM Lanka

Software Engineer

Aug 2024 - Jan 2025

- Developed solutions using **.Net/C#** and **MSSQL** with engineering best practices and quality standards to meet the requirements of a Banking Applications.Like a EDM,CRM ,DMS.
- Architected and implemented solutions adhering to SOLID principles involving full SDLC.
- Experience to create Workflow Using Microsoft Power Apps tools

Titum

Software Engineer (Junior Level)

Aug 2023 - Aug 2024

- Developed solutions using **React**, **.Net/C#** and **MSSQL** with engineering best practices and quality standards to meet the requirements of an Ecommerce system.
- Developed efficient and scalable **REST** APIs, contributing to a more robust and responsive system.
- Developed software verification plans and quality assurance procedures in collaboration with partner teams.
- Conducted bug analysis, optimized database design, and queries for enhanced performance and scalability.

Key Projects: **LuckyHR Solution** , **RTS Intercom** , **(CAPI)Computer-Assisted Personal Interviewing**, **Ecommerce Platform** , **BizX ERP system**

Amana Bank IT Department

Software Developer Intern

Dec 2022 - Aug 2023

- Developed and maintained dynamic responsive UIs using **PHP**, **Bootstrap**, **JavaScript**,**jQuery**.
- Worked on **.NET/C#** Framework to build and enhance banking applications.
- Utilized **MSSQL** as a relational database management system for handling complex data.
- Gained hands-on experience with **MVC** architecture, streamlining the development of several in-house systems.
- Contributed to **CI/CD** and DevOps processes leveraging **AWS**.

Key Projects: **HR Information System** , **Banking Applications**,**Data Management System**

Software Engineer Intern

- Assisted in the development of custom software solutions to meet specific university requirements.
- Worked on a special project funded by USAID, contributing to software development and implementation.

EDUCATION**Master of Information Technology (Reading)**

Uwa Welassa University of Sri Lanka

2025 - Reading

BSc(hons) IT Spealization In IT

Sri Lanka Institute of Information Technology (SLIIT)

2020 - 2024

CERTIFICATIONS**AWS Cloud**

AWS CLOUD PRACTITIONER ESSENTIAL

Udemy Course:JAVA , C++,C# , ASP.NET.Core , PHP , Python
, React , Angular , SQL , Mongo DB , AWS**TECHNICAL SKILLS****Languages**C#, Java, JavaScript, Typescript,
Python, PHP**Frameworks** .NET core, Laravel,Spring Boot, Django, NodeJs,
NextJs , NestJs

React, Angular, SQL, NoSQL,

PostgreSQL, Firebase, Wordpress,
IIS, Tomcat, IOT, Azure**AWARDS AND RECOGNITIONS****Top10Semi FinalistHackX(MITUniversityofKelaniya)****Recognition**

- Recognized as one of the top 10 teams for developing the ETC Garbage mobile app focused on smart waste management solutions.

HackaDev (UNDP Srilanka)**Tertiary Business - Award**

- Built a web system using **Java Spring Boot, Next Js, PostgreSQL, Firebase** that addresses core problems faced by digital nomads and reduces pain points in their journey from the pre-planning stage to the end while providing crucial benefits to all system stakeholders.

Social Cohesion and Reconciliation Score Youth Activity (SYA)**Winner**

- Our group's proposal Creating New Entrepreneurship was selected in the proposed by the Eastern Province through SYA project and we provided about 1 million valuable items to the people through USAID funding

VOLUNTEER EXPERIENCE**IEEEEXTREME****Oct 2021 - Dec 2021****Ambassador**
